

2018 Annual Report

Contents

Brief Note of History

“Allambi House” (AKA The Lake Macquarie Youth Refuge) opened in 1981, later known as Allambi Youth Services Inc. (2001-2015), and now known as Allambi Care.

Traditional Acknowledgement

Allambi Care acknowledge the Traditional Custodians of country throughout Australia, and recognise their continuing connection to land, sea and community. We pay respect to their traditions, culture, aspirations and Elders past, present and emerging. We acknowledge the wounds of the past, and the ongoing failure to recognise and support the importance of Aboriginal and Torres Strait Islander culture. We commit our organisation in walking alongside Aboriginal and Torres Strait Islander peoples in their process of healing, and creating opportunities for cultural connection.

About Us

Our Vision & Strategy

Vision

Belonging, hope and positive futures

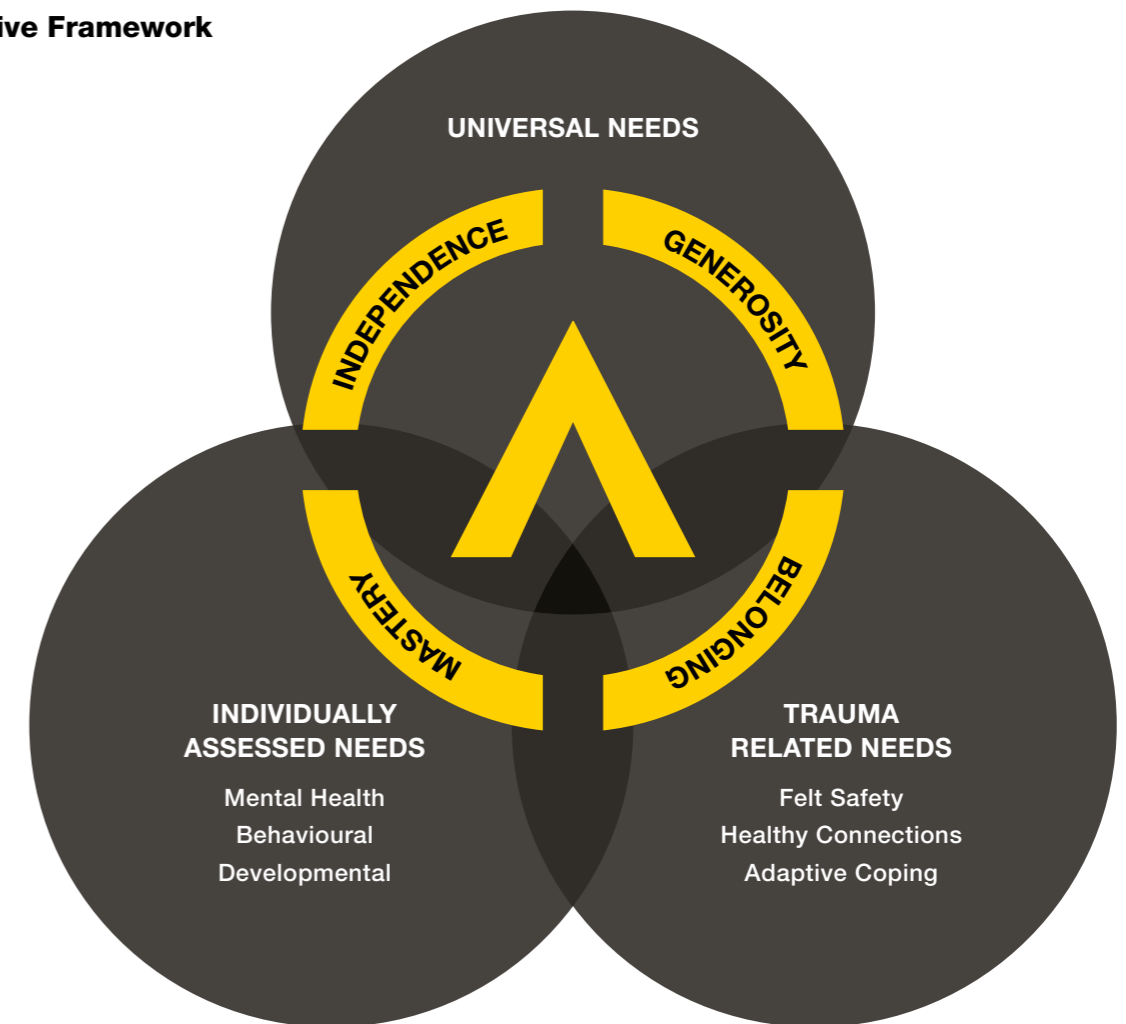

Mission

Allambi Care serves individuals, families, communities and government agencies. We are committed to addressing safety and growth needs so that we empower people to reach their full potential. Our services are flexible and characterised by innovation and best practice.

Values

- We believe in individual experiences and strengths
- We believe in leadership, support and empowerment
- We believe in innovation and creative practice
- We believe in passion, persistence and a commitment to others
- We believe in honest, genuine and transparent relationships
- We believe in equality and embracing differences
- We believe in “Being With” people through life’s challenges

Needs Based Restorative Framework

Depicted is the Allambi Care Needs-Based Restorative Framework that is grounded in research on optimal human development.

The Needs-Based Restorative Framework guides the work of Allambi Care’s residential carers, foster carers, family support workers, casework staff, teachers and clinicians. It is based on our commitment to responding to the multiple needs of people in care rather than requiring them to adjust to a particular service model.

There are three core components to the Framework. The central focus is on the normal and shared developmental needs of all people and the defining features of healthy growth as outlined in models such as the Circle of Courage. These are **Universal Needs**.

Given that the majority of people that Allambi Care work with have experienced severe adversity and trauma, the second major element of the Framework is on understanding and responding to **trauma-related needs**.

The third element of the Framework is that of **individually assessed needs**. Some clients are referred to Allambi Care because of specific developmental disorders, mental health concerns, or specific behavioural concerns. These issues require an in-depth assessment and tailored intervention plans.

The Chairman's Report

This year Allambi Care has continued to provide Intensive Therapeutic Care, Foster Care, NDIA Services and Early Intervention and Outreach Programs for vulnerable children, young people and families across the Hunter and Central Coast Regions of NSW.

THIS YEAR ALLAMBI CARE HAS CARED FOR

1267 individuals

215 families

Allambi has cared for over 756 individuals and 209 families this year providing them with a safe environment, nurturing of their development and helping them to reach their potential. Our outcome focused individual care and family plans continue to set the benchmark in our sector.

Change of operating environment

This year has been a particularly challenging year for Allambi. All of our contracts from Government Agencies to provide care have had to be retendered under new conditions. The Agencies have changed the structure of care that they require under these contracts and Allambi has been disadvantaged by some of these changes. Our model of providing 'wrap around' services to provide the best individual care to individuals and their families has not been fully funded under the new contracts even though our model has been acknowledged as being best

practice in the sector. This situation has led to uncertainty in attempting to plan our future and incredible stress on our people. We are still working through many of the issues that these changes have forced upon us.

These significant changes have required an amazing effort from our Executive staff and our Directors who have worked long hours with dedication to get the best outcome for our clients. Our front-line staff have responded magnificently to the challenges that confront us. I am proud and thankful of everyone's efforts during this period of change.

The Board has expressed complete faith in and support for the Executive and Directors in working through the issues. A decision has been made that the care of those we serve is of paramount concern and we are not prepared to offer services that do not provide our clients with safety, the ability to overcome challenges and achieve personal growth.

Strategic Plan

We are in the third year of implementing our Strategic Plan and it is rewarding to see how our operations are driving to

meet the focus points of the plan. The Board continues to receive presentations from operating departments to ensure we understand the nature of our organisation and the challenges we face. Our Strategic Plan will be revisited this year.

I would like to share some key developments that relate to our Strategic Plan.

Accreditation: Allambi Care has achieved accreditation from the NDIA to provide services to the disability sector. The pleasing thing about this accreditation is that Allambi was complemented on our capability and all parts of the audit were passed without need for amendment.

Property changes: We have procured a new property on Macquarie Road Warners Bay. The property is adjacent to our existing property and has been used for industrial purposes. It has significant buildings and infrastructure in place. This property meets the Strategic Plan requirements of growing the company and provides opportunities for connecting with the community, diversifying our income stream and providing additional wrap around services for our clients. It is an exciting opportunity and detailed plans for its utilisation are being formulated. Redevelopment of the Fraser Parade property is underway with additional car parking and redevelopment of some buildings to provide additional training and staff spaces.

Staff Development and Retention: Allambi have continued to successfully navigate a formal agreement with

Cornell University to be the Australian providers of TCI training. This has led to a significant amount of training activity which is of benefit to Allambi and the whole Australian environment. Training activities have been carried out Australia-wide and have met demand in the Community Services field.

Together with the Australian Catholic University we have developed a Degree course suitable for those employed in our sector. The new contracts with FaCS require many of our people to be Degree qualified and we have been leaders in making this provision. Although it is still in its infancy, 31 employees have enrolled in this Degree course.

We have continued to provide a Diploma course for our staff with DaV'ange Training and as of June 2018 150 of our staff were enrolled in this program. Arrangements have been made for work done for the Diploma to be articulated into the Degree course to provide a learning continuum for staff.

We have continued to seek opportunities for the development of our staff and to make Allambi an employer of choice. It was pleasing to hold a Service Award Recognition dinner for staff again this year where we acknowledged the contribution made by many staff members.

Marketing: We continued to promote our brand in the community with specific campaigns focused on Foster Care and Youth Workers. Allambi was nominated for the Lake Macquarie Business Excellence Awards for our Contribution to the Region and were delighted to

be declared the winner of the Hunter Business Awards – Excellence in Social Enterprise!

Thankfulness

Again, our operations have only been possible by the integrity and professionalism of our staff and colleagues who provide care to people who are going through very tough times. This care is often delivered in challenging environments without compromise to high professional standards, integrity and duty of care. I thank you sincerely for your sensitive, diligent and professional approach.

The Board has been faced with some challenging times this year. The relationship between the executive and non-executive members has been sound as we have negotiated difficult decisions. I am grateful for the generosity of the Board members in sharing their experience and time to enhance the performance of our organisation and to ensure good governance.

I am proud to be associated with this organisation that is making a difference in the lives of many people and I am privileged to be able to contribute to our outcomes.

Thank you for your contribution in making a difference in so many lives.

KEN YOUMAN
CHAIRMAN – BOARD OF
ALLAMBI CARE LIMITED

What a year. The change, growth and refinement has continued. The sector has, and continues, to evolve. Once again, we couldn't be where we are without a team of staff and carers who go above and beyond in their roles. I must begin by thanking each one of you for your ongoing passion and commitment.

We continued to navigate the FaCS tendering process through the 2017/2018 financial year, putting our best foot forward to showcase the quality of service we can apply to individuals and their families. Whilst some elements of this process continue, we successfully tendered for the Single Invitation Proposal and Intensive Therapeutic Care, as a preferred provider. I admire our staff for the work they put in to this process, both in presenting us as a quality organisation, and in applying the changes required to meet the new requirements of the contract. Resilience and adaptation are rife in Allambi Care.

Innovation across the organisation has continued. The Allambi Training Program (ATP) thrives, with 150 staff currently completing their Diploma of Community Services. In addition, the Degree component of the ATP has started, with 25 staff recently beginning their journey as University students completing a

Bachelor of Human Services through our collaboration with the Australian Catholic University. The success of the ATP illustrates how committed our staff are to be providing the best possible outcomes for the individuals we care for, and I couldn't be prouder to be able to offer this tailored professional development program in our organisation.

TACT Training has prospered with the Therapeutic Crisis Intervention (TCI) program in demand nationally. We have been required to expand our staff in this branch of the organisation to meet ongoing need and have facilitated more than 30 TCI Train the Trainer courses throughout the year. We are honoured to be contributing to the upskilling of the sector. We look forward to future opportunities through TACT and continuing to grow our relationship with the Bronfenbrenner Centre for Translational Research at Cornell University.

Allambi Care was proud to open the Homelessness Youth Assistance Program in July 2017, supporting children aged 12 to 15 years on the Central Coast with outreach support and refuge accommodation. The aim of this program is to secure a permanent placement with family for each child accessing the service and we are proud to be able to extend our outreach support to this area.

We have continued our journey through the national and international space of child protection and trauma-informed care and have been fortunate to attend several conferences to connect with and

learn from experts in this field on a global scale. Closer to home, we maintain representation on several bodies including the Children in Care Collective and the National Therapeutic Residential Care Alliance, amongst others.

Raising our community profile has been a focus for us, and we have been fortunate enough to both participate in, and provide, several events that have given something back to local families. I invite you to look through this report to see just how much we have achieved in this space.

As you will see our commitment to providing services to the local community has made great strides this year. We were able to expand our site at Macquarie Road Warners Bay to allow us to meet our community-based objectives. The strategic vision for these ventures is guiding our operations in this area and we hope to be able to provide services that not only benefit the individuals and families we care for, but also the wider community. Endless possibilities await in this space and I look forward to seeing where this leads us into 2019.

We have been blessed to also receive recognition and support in various forms. BIG W joined us for our Christmas Appeal, committing as a major sponsor and allowing us to host a Giving Tree in their Hunter stores. This support continued, and we were able to assist local families through a Winter Appeal further supported by BIG W. We were also recognised by the Hamilton Branch of the Commonwealth Bank who

nominated us for a Centenary Grant. Finally, we were nominated as a finalist in the Lake Macquarie Business Excellence Awards in the category of Contribution to the Region and won an award for Excellence in Social Enterprise through the Hunter Business Awards. What a year – and what great acknowledgment from the local business community.

None of the above would be possible if it weren't for our staff and carers who commit to and ensure the best possible care for vulnerable children, young people, adults and families. With our success over the last year we have also been met with many challenges, yet at

times when we have felt discouraged we are always picked up by those around us. This is also the case for our Board of Directors, who provide their direction, support and encouragement always. As an organisation we remain strong and confident and we continue to thrive because of who we are.

SIMON WALSH
CHIEF EXECUTIVE OFFICER

Our Broader Team

DIPLOMA PROGRAM

“When I first enrolled, I’ll be honest I was really nervous, I found it so daunting. I mean I haven’t studied since 1988 so I was worried. Who would have thought at my age I would be studying a Diploma? The guys that run it and the teamwork I experience at the workshops has been brilliant.

I can’t thank the trainers enough for the support they have given me to keep going in the process. My team members and I come along every month together, its great being able to do it with the boys. It’s made a massive difference for me being able to study with the people I work with. I can’t believe I will be finishing soon, I wish my Dad was still alive to see me finish it, I honestly never thought I would be finishing a Diploma. I can’t thank Allambi enough for the opportunity of doing this, they have been so supportive. I’m just so grateful.”

DEGREE PROGRAM

Allambi has formalised a partnership with the Australian Catholic University (ACU) to deliver a Bachelor of Human Services (BHS) commencing the second semester of 2018. Negotiations commenced as an Allambi initiative in 2016 to implement what we believed to be best practice, and to provide additional career progression opportunities for employees. Family and Community Services have since announced that a relevant Bachelor’s Degree is a minimum qualification requirements to support the development of a skilled and professional workforce.

Mark Said (Director of Education & Development) has been continuing negotiations throughout the year with ACU’s Professors Karen Flowers and Debbie Plath as well as David Bradford and Dr Howard Bath to design a

proficient educational pathway that is best practice in our field. The BHS has been designed to recognise the decades of experience that our employees hold, and to be flexible enough to allow the continuation of employee’s full-time commitment to our community. Allambi has been appreciative of ACU’s dedication to navigate both academic governance and processes as well as Allambi Care’s needs to deliver an incredibly innovative product.

The employees / students who have been selected to pilot the program have successfully progressed through the rigorous Recognition of Prior Learning application stage and are eagerly looking forward to commencing their study in August 2018.

LOCATION OF SERVICE

Individuals and families in Allambi Care are located in NSW across the Upper Hunter, Hunter, Lake Macquarie, Port Stephens, Central Coast areas.

Little Rangers

A partnership between Allambi Care and the Lake Macquarie Environmental Sustainability Grants Program brought to light the Little Rangers Program for our Young People and Youth Hope program.

The Environmental Sustainability Grants program is designed to support community-initiative projects that improve our local environment and inspire environmentally sustainable behaviour within Lake Macquarie City.

Allambi Care was awarded a Grant in late 2017 to complete a series of bush-regeneration projects in line with our mission. The mission was to provide an empowering platform for Young People to gain awareness of their environment and ways to participate in a more sustainable lifestyle. We achieved this through a series of objectives that

aimed to improve the water quality of Winding Creek (that runs through our property), educate the Allambi community on environmental issues, create new habitat for native species and invasive species control within our bushland, that just so happens to be an Endangered Ecological Community.

To ensure our objectives and mission were met we created the Little Rangers program. Young People from our Residential, Lifemaps, Foster Care and Youth Hope programs formed a group who participated in weekly sessions that empowered, educated

and collaboratively worked together to achieve a common goal for our environment.

Our Little Rangers group planted over 1000 native flora species surrounding the riparian zone at Winding Creek, this created new vegetation that enhances and preserves indigenous species and habitat for native fauna and flora. They also created nest boxes for new habitat for local and native fauna to enhance the eco-system.

A key achievement of this program was our Youth Hope Family tree planting day. Families planted over 200 native species to help regenerate vegetation in our local bushland. A local business also volunteered their time and expertise on bush regeneration and gave families a helping hand to get the plants in. There were also other fun activities, such as making Bees Wax wraps that were not only fun but educated everyone on alternatives to single use plastic!

TBRI/Parenting Program

Better Options and Youth Hope provide support directly to families within the community.

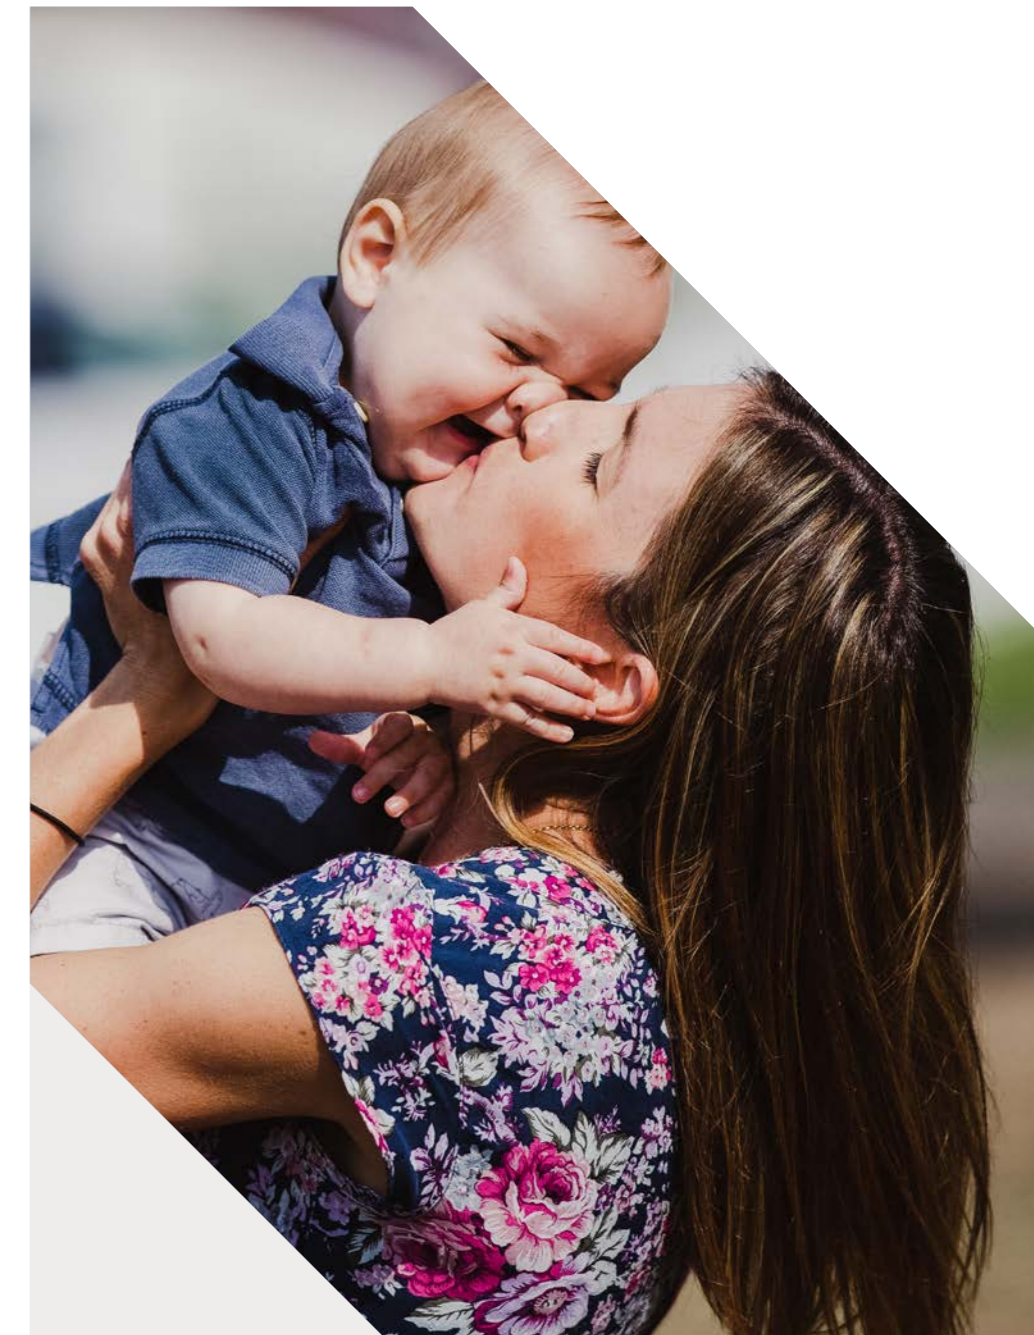

Two programs that we are able to deliver to our families includes Trust Based Relationship Intervention (TBRI) and the Parenting Program. TBRI is a therapeutic model that assists caregivers in providing effective support for vulnerable children, while the Parenting Program is designed by our team of Social Workers and delivers specific programs based on the diverse needs of the families we support. Families who have undergone these programs have reported huge successes within their homes and have been able to rebuild trust, connectedness and positive attachments with their children.

“This program has helped me so much, I feel so much more confident in my parenting”

(PARENT, 21.08.2018)

“This support has been great knowing I have full support for the needs of my two boys and myself”

(PARENT, 20.11.2017)

Clinical Case Study

Allambi Care had 14-year-old male, Sebastian* enter Residential Care at a 2:1 worker ratio on the 14/02/2018. Sebastian entered care prescribed a significant amount of psychotropic medication, along with a long list of diagnoses.

These diagnoses were given with little investigation and based on interactions in heightened and unnatural situations such as the Emergency Department or in Juvenile Detention. Sebastian was displaying several concerning behaviours including self-harm, suicidal ideation, aggressiveness towards family and community, as well as stating that he was hearing voices. Prior to entering care with Allambi, Sebastian was involved in over 20 incidents requiring police intervention and was admitted to the NEXUS Unit on a number of occasions. Following an incident at NEXUS involving him removing the secure door during an incident, he was remanded in custody in a Juvenile Justice Centre.

Once being released from detention and entering the placement with Allambi Care, Sebastian and his family received a wraparound approach from the Allambi Care clinical department, including support from a Psychiatrist, Psychologist and Behaviour Support Specialist. Both parents attended appointments with the Psychiatrist to form a better understanding of Sebastian's diagnoses, needs and to build an understanding

of their role in supporting their son to return to the care of the family. Sebastian attended fortnightly, and eventually monthly appointments with the Psychiatrist for medication reviews, which included a significant decrease in the volume and variation of medications that he was prescribed. The parents both together and separately attended several appointments with the Behaviour Support Specialist to be educated in appropriate and therapeutic behaviour support using the Applied Behaviour Analysis technique. The parents were able to put this into practice, resulting in a reduction of incidents during family contact and Sebastian giving feedback that his parents were responding better to him. Sebastian attended weekly appointments with the Behaviour Support Specialist from April 2018 for Dialectic Behaviour Therapy sessions, where he was taught strategies in managing stress and anxiety, which Sebastian clearly was able to put into practise in his daily life. The Behaviour Support Specialist communicated, trained and gave feedback to Sebastian's team of youth workers and management team. The Behaviour Support Specialist

attended several team meetings to train data collection, as well as behaviour management techniques to ensure there was consistency.

A psychological report was conducted by the Psychologist, where Sebastian attended ten diagnostic testing appointments in order to determine an updated diagnostic assessment. The Evaluation Instruments administered were:

- Wechsler Intelligence Scale for Children – Fifth Edition (WISC-V)
- Adaptive Behaviour Assessment System – Third Edition (ABAS-III)
- Conners Comprehensive Behaviour Rating Scales (CBRS)
- Comprehensive Executive Functioning Inventory (CEFI)
- Autism Spectrum Rating Scales (ASRS)
- Autism Diagnostic Interview – Revised – (ADI-R)
- Autism Diagnostic Observation Schedule (ADOS)
- Conners Continuous Performance Test – Third Edition (CPT3)
- Conners Continuous Auditory Test of Attention (CATA)
- Minnesota Multiphasic Personality Inventory – Adolescent (MMPI-A)
- Multidimensional Anxiety Scale for Children – Second Edition (MASC2)

Following this, it was determined that Sebastian did not meet the criteria for two of his listed diagnoses. Additionally, the assessments found that he qualified for four formerly undiagnosed disorders.

Of the seven occasions that emergency services have been engaged with Sebastian since his entry to the Allambi Care placement, none were called on by Allambi Care. Five occasions were due to a member of the community calling the police or ambulance, two occasions were coincidental engagements due to the police seeing an incident unfolding in the community and stopped to assist. Sebastian was taken to the hospital on one occasion following an incident, however this instance was transported by Allambi Care staff to and from the hospital with no engagement from the mental health services. Sebastian's level of risk was assessed internally by the Allambi Care Psychologist and managed in house.

Overall, the risk Sebastian poses to himself, staff, his family and the community has dramatically decreased and he is now on a restoration plan to return to live with his parents.

*Not his real name

Cinema in the Park

This year Allambi Care decided to provide free open air cinema events for the local community in Speers Point park.

The cinemas are a completely free event for local families that include music, rides and face painting for the kids, performers and a variety of food vendors. The March and September events, which were both capped off by perfect weather, were tremendous examples of successful collaboration between Allambi Care, the Lake Macquarie City Council and the NSW Police Local Area Command who both respectively provided Allambi Care with generous support. Approximately 8500 members of the community have attended over the two past events. The family friendly atmosphere has been well received by all who have attended with many local families thanking Allambi staff who volunteered during the events. A number of families commented that 'Nothing is Free Anymore', and that without the Allambi Care event they would never have been able to afford to do something like this with their children. With four more dates booked in over the warmer months Allambi Care aim to continue to add value from these events by providing free family friendly entertainment that brings the community together.

04

Financial Report

Financial Report

As outlined throughout this Report, Allambi Care has continued to maintain growth during the 2018 financial year.

A surplus of \$3,604,736 was achieved in the 2018 financial year, which continues to contribute to the long term viability of the organisation. Any surplus made by the organisation is reinvested into upgraded and new infrastructure to directly benefit our clients.

**INCOME INCREASE
FROM LAST FINANCIAL YEAR**

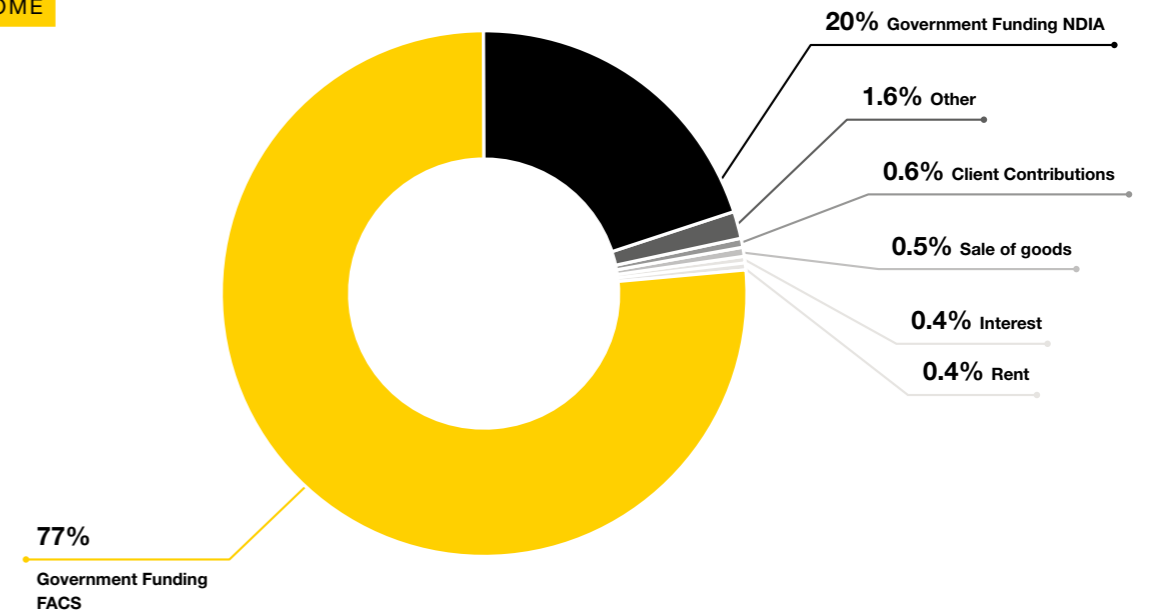

4%

**TOTAL ASSETS INCREASE
FROM LAST FINANCIAL YEAR**

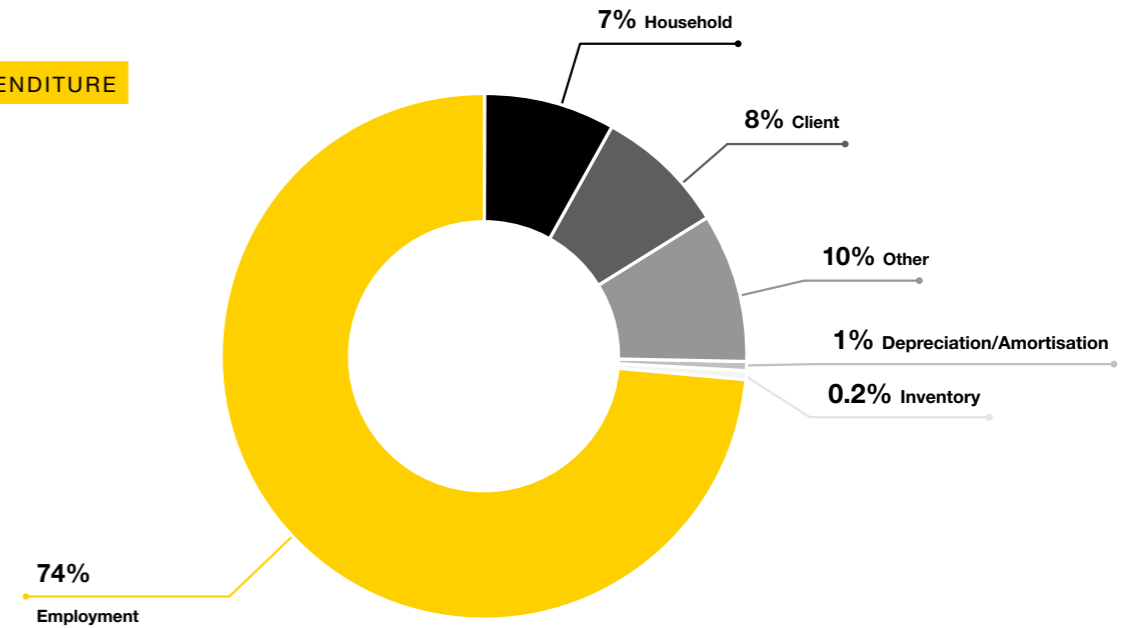

15%

INCOME

EXPENDITURE

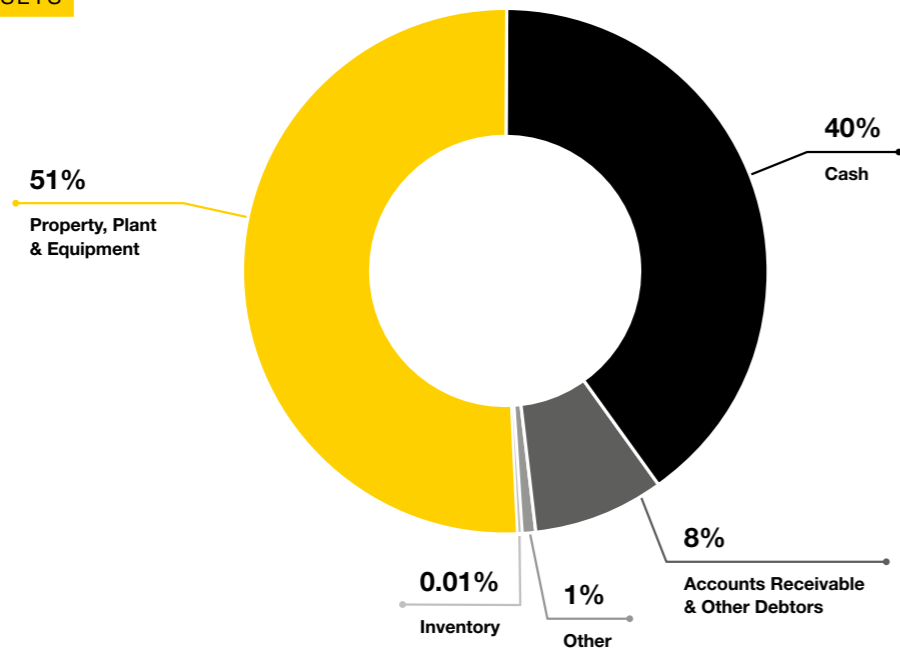

Income has increased 4% or \$2.6m during the 2018 financial year. This growth has been in Out of Home Care and Disability Service programs. Expenditure has also increased by 4% or \$2.7m during the 2017 financial year. The majority of expenditure relates to

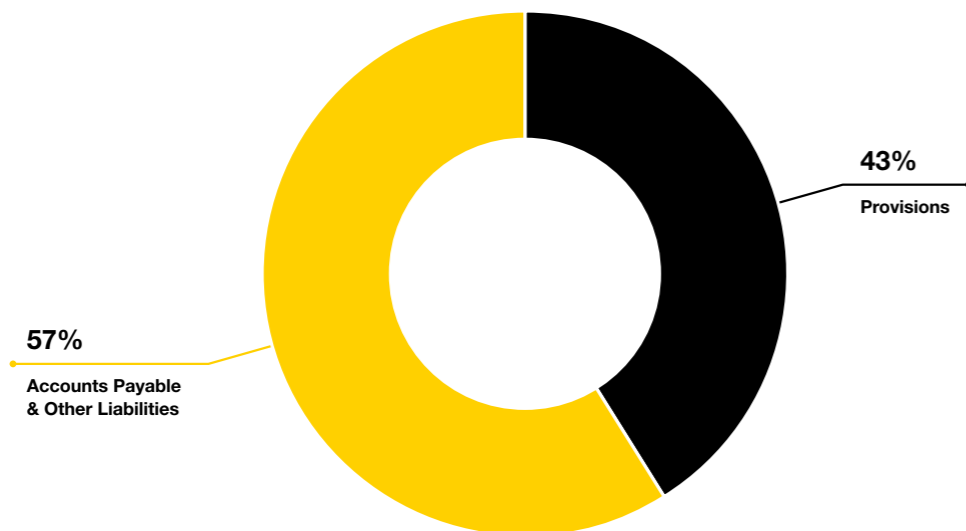

employment costs which represent 74% of total expenses.

Outlined above is the breakup of income and expenditure for the 2018 financial year.

ASSETS

LIABILITIES

Total assets have increased by \$5.8m or 15% compared to 2017. Capital expenditure during the financial year has equated to \$2.6m. Total liabilities has increased \$2.2m or 32% compared to 2017. Net assets have increased 11% to \$3.64m.

Outlined above is the breakup of assets and liabilities as at 30 June 2018.

Make a donation
allambicare.org.au

Community participation and donations allow Allambi Care to continue our work in supporting those who need it most.

We pride ourselves on creating positive experiences for the many individuals and families accessing our services of care. Where possible, we appreciate the community's involvement in facilitating social value and inclusion for those we care for.

Donate Online

You can pledge a single or periodic donation to Allambi Care by visiting allambicare.org.au or contact us on (02) 4944 5900 to arrange alternative methods of payment.

Fundraising Events

Allambi Care participates in a number of local events throughout the year. You can contact us by visiting allambicare.org.au if you are interested in volunteering your time, or would like to nominate Allambi Care to be the beneficiary of your next event. We are always appreciative of any efforts that aim to communicate our cause and would be happy to provide support for your event where possible.

Leave a Gift in your Will

By leaving a gift in your will, you have the power to help us give back to the community and people in need. Your gift, no matter how large or small, will make a difference to those we care for. If you wish to consider Allambi Care in your will, please contact us on (02) 4944 5900 to make arrangements.

Corporate Donors

Allambi Care aims to meet the needs of the local community by aligning ourselves with generous business partners who define themselves by values of care.

Allambi Care's Community Partnership Program (ACPP) aims to partner with local organisations and individuals or families accessing our services to address a number of significant needs within our community. ACPP offers corporate donors the opportunity to not only provide monetary donation, but to allocate its direction back into the community in a way that also involves individuals or families accessing our services in development and social participation. Corporate donors benefit from the creation of shared economic and social value in their local community. ACPP utilises existing assets of Allambi Care services to generate 4 channels

of support to the community; Clinical Support, Property Maintenance, Education Assistance, and Professional Development for those who need it. Donors are able to nominate community recipients. If you are interested in participating in this program or would like further information you can contact Allambi Care by visiting allambicare.org.au or on (02) 4944 5900.

For further information on how you can make a difference, please contact us
